Skills

PHP, Laravel, JQuery, HTML, CSS, MySQL, JavaScript, Ajax, Backend, Server-Side Scripting, Web Development, OOPS, Restful API, Code Optimization, Cross-functional Team Collaborator

Experience

Pearl Organisation / Technology Executive (July 2023 To Present)

Spearhead the design, development and implementation of complex Laravel-based applications, meeting and exceeding client expectations.

Collaborate with cross-functional teams, including UX/UI designers and deliver high-quality, user-centric solutions.

Conduct code reviews and provide mentorship to junior developers and a learning-oriented environment.

Eskay Investment Project

- Customer Management
- Stock Allotment
- Plan and Opportunity Management
- User Role Management
- Stock Details Management
- User Interface Design
- Testing and Debugging
- Technologies & Frameworks used:
 - PHP, Laravel

V-run Project

- Query Form Implementation
- Email Notification System
 - Orchestrated email notifications for prompt owner alerts upon query form submissions.
 - Integrated seamless data transfer to the owner's email, optimizing communication channels.
- Dynamic DataTables with jQuery
 - Innovatively employed jQuery for dynamic DataTables, enabling intuitive data presentation.
- Excel Data Export Feature

- **Authentication System Integration**
 - Implemented Laravel's robust authentication system, fortifying user logins with secure features.
 - Spearheaded user registration, login, and logout functionalities, enhancing overall system security.
- **On-key Up Search Functionality**
- **Popup Messages with izitoast**
 - Integrated izitoast for visually appealing and responsive popup messages, enhancing user interaction.
- **Print Button Implementation**
 - Developed a print feature, enabling users to generate and print specific application sections seamlessly.
- **Cron Job Automation**
 - Configured and scheduled cron jobs, ensuring timely execution of background tasks for a smooth operation.
- **Dynamic Dashboard Cards**
 - Designed a dynamic dashboard featuring organized card displays, providing administrators with vital information at a glance.
- **Password Recovery Mechanism with Token**
 - Implemented a secure password recovery system with token-based verification, bolstering application security.
- **Ajax Form Submission Enhancement**
 - Improved user experience by enabling Ajax form submissions, facilitating seamless data submission without page reloads.
- **Modal Dialogs for Details Management**
 - Implemented modal dialogs for creating, editing, and viewing details, enhancing user interface intuitiveness.
- **OTP Verification for Login Security**
 - Strengthened login security with OTP verification, adding an extra layer of authentication for user logins.

Education

Shri Guru Ram Rai University / Master of Computer Applications
2021-2023

Hemvati Nandan Bahuguna Garhwal University / Bachelor of Science in Computer Science
2017-2020
